

BLEAU CLEAN | HEALTH & SANITATION PROGRAM | AT A GLANCE

The safety and security of our guests, visitors and team members remains the highest priority at Fontainebleau. Under the guidance of the CDC, local government and health officials, we've instituted an extensive, multi-point safety and sanitization program. The below items are a high level overview of this plan.

- **AM~PM DOC on Property:** To address medical needs immediately, Fontainebleau guests have the option to use SKYDOC 24-hours a day to communicate via their computer/cell phone or schedule a doctor visit in the comfort of their hotel room.
- **Temperature Checks:** Daily monitoring of guest and team member health through non-invasive temperature checks.
- **Guest Sanitation Amenities:** Every guest will receive a sanitation amenity bag at check-in containing two disposable masks, a bottle of hand sanitizer and disinfectant wipes.
- **State-of-the-art Electrostatic Sprayers:** State-of-the-art Electrostatic sprayers used in each room prior to guest arrival, utilizing the highest level of disinfectants as recommended by the CDC and WHO.
- **Resort Cleaning & Sanitation:** Increased cleaning and sanitization protocols, using hospital-grade peroxide multi-surface cleaner and chemicals. Public restrooms are equipped with touch-free devices, including sink and soap and paper towel dispensers.
- **Protective Equipment:** Acrylic Plexiglas guards throughout the Hotel. Mandatory Personal Protective Equipment for team members, including masks and gloves. In following Miami-Dade guidelines, guests are required to wear masks while moving throughout hotel.
- **Hand Sanitizer:** Touch-less hand sanitizer dispensers located throughout the Hotel.
- **Employee Testing:** Mandatory COVID-19 testing of all Fontainebleau team members prior to returning to work.
- **Employee Training:** Reinforcement of personal hygiene, proper hand-washing and use of alcohol-based hand sanitizers. Team members will complete a certified workplace disinfection, sanitation and safety training program.
- **Physical Distancing:** Restaurant tables, and other public gathering areas, are arranged to ensure appropriate distancing. Physical distancing encouraged throughout the hotel with clearly marked signage.
